BOCHK Personal Green Time Deposit Scheme – Quarterly Report Q3 2026

➢ As of 30 Sep 2026, the percentage of all personal green time deposits allocated to Eligible Green Projects [1] is as follows:

	As of 30 Sep 2026
% of personal green deposits allocated to Eligible Green Projects [1]	100% [2]

At all times during the quarter ended 30 Sep 2026, all green deposits were allocated to Eligible Green Projects and at no time were any green deposits unallocated.

➢ As of 30 Sep 2026, Eligible Green Projects[1] where personal green time deposits were allocated consist of loans according to the following themes:

Green Project Theme	Approved Loan Limit (HKD Million)	%
Green buildings	4,965	46%
Sustainable water resources and water management	5,832	54%
Total	10,797	100%

Note: We engaged a qualified independent third party to review our Eligible Green Projects list, and their most recent report is available on our public website. As set forth in our Appendix I Bank of China (Hong Kong) Limited Description of Bank of China (Hong Kong) Limited's 2023 Green Deposit, we will engage an external reviewer to review our Eligible Green Projects on an annual basis.

1. BOCHK offers green deposits to corporate and personal customers separately; green deposits collected from both customer channels are allocated to the common pool of Eligible Green Projects described above.
2. The percentage is computed based on corporate green deposits allocated against the total approved loan limit stated in this Quarterly Report.
