An APR is a reference rate which includes the basic interest rate and other fees and charges of a product expressed as an annualized rate. If statement balance is not settled in full by the due date, interest will be accrued on the unpaid balance of spending and/or cash advance on a daily basis and to be indicated in the next statement. As an example of Statement balance HKD50,000 and Late Charge HKD230, the maximum Retail Spending APR is 35.94%; the maximum Cash Advance APR is 35.55%.
