8. Compliance with the Code on Corporate Governance Practices of the Listing Rules

In pursuit of the Company's stated objective to embrace good corporate governance principles and practices, the Company has been continuously enhancing its corporate governance practices in order to attain even higher standards. In conjunction with the implementation of the Code on Corporate Governance Practices (the "CG Code") contained in Appendix 14 of the Listing Rules issued by the Stock Exchange of Hong Kong on 1 January 2005, the Company has further strengthened its corporate governance practices by reference to the requirements of the CG Code and international best practices. The Company is pleased to announce that it has been in full compliance with all the code provisions of the CG Code and that it has also complied with nearly all the recommended best practices set out in the CG Code throughout the period under review. 9. Compliance with the Codes for Securities Transactions by Directors

Apart from the securities of the Company, the Company's Code applies equally to the Director's dealings in the securities of our parent bank, BOC which was listed on the Stock Exchange of Hong Kong in June 2006. In this connection, the Company had made specific enquiry of all Directors, who confirmed that they had complied with the standards set out in both the Company's Code and the Model Code throughout the period under review.

12. Reconciliation between HKFRSs vs IFRS/CAS

The Company understands that BOC, an intermediate holding company as well as controlling shareholder of the Company, will prepare and disclose consolidated financial information in accordance with IFRS and CAS for which the Company and its subsidiaries will form part of the interim financial information. CAS is the new set of PRC accounting standards that has been effective for annual periods beginning on or after 1 January 2007 for companies publicly listed in PRC. The requirements of CAS have substantially converged with IFRS and HKFRSs.

The consolidated financial information of “BOC Hong Kong Group” for the periods disclosed by BOC in its interim financial information is not the same as the consolidated financial information of the Group for the periods published by the Company pursuant to applicable laws and regulations in Hong Kong. There are two reasons for this.

First, the definitions of “BOC Hong Kong Group” (as adopted by BOC for the purpose of its own financial disclosure) and “Group” (as adopted by the Company in preparing and presenting its consolidated financial information) are different: “BOC Hong Kong Group” refers to BOCHKG and its subsidiaries, whereas “Group” refers to the Company and its subsidiaries (see the below organisation chart). Though there is a difference in definitions between “BOC Hong Kong Group” and “Group”, their financial results for the periods presented are substantially the same. This is because BOCHKG and BOC (BVI) are holding companies only and have no substantive operations of their own.

Second, the Group has prepared its interim financial information in accordance with HK GAAP prior to 1 January 2005 and as from 1 January 2005 onwards in accordance with HKFRSs; whereas the consolidated financial information reported to BOC is prepared in accordance with IFRS and CAS respectively. Despite the fact that HKFRSs have converged with IFRS, there is a timing difference in the initial adoption of HKFRSs and IFRS by the Group and by BOC respectively.

The Board considers that the best way to ensure that shareholders and the investing public understand the material differences between the consolidated financial information of the Group published by the Company on the one hand, and the consolidated financial information of BOC Hong Kong Group disclosed by BOC in its interim financial information on the other hand, is to present reconciliations of the profit after tax/net assets of the Group prepared under HKFRSs to the profit after tax/net assets of the Group prepared under IFRS and CAS respectively for the periods presented.

The major differences between HKFRSs and IFRS/CAS, which arise from the difference in measurement basis in IFRS or CAS and the timing difference in the initial adoption of HKFRSs and IFRS relate to the following:

- re-measurement of carrying value of treasury products;
- restatement of carrying value of bank premises; and
- deferred taxation impact arising from the above different measurement basis.

12. Reconciliation between HKFRSs vs IFRS/CAS (continued)

(a) Re-measurement of carrying value of treasury products

Due to the difference in the timing of first adoption of HKFRSs and IFRS, classification and measurement of certain investment securities under HK GAAP/HKFRSs and IFRS were different. Therefore, investment securities were reclassified and re-measured to align with the accounting policies of BOC for the relevant periods. Classification and measurement under IFRS and CAS is basically the same.

(b) Restatement of carrying value of bank premises

The Company has elected for a revaluation basis rather than cost basis to account for bank premises and investment properties under HKFRSs. On the contrary, BOC has elected for the cost convention for bank premises and revaluation basis for investment properties under IFRS and CAS. Therefore, adjustments have been made to the carrying value of bank premises as well as to re-calculate the depreciation charge and disposal gain/loss under IFRS and CAS.

(c) Deferred tax adjustments

These represent the deferred tax effect of the aforesaid adjustments.

Going forward, the differences relating to the restatement of carrying value of bank premises as a result of the election of the different measurement basis allowed under HKFRSs, IFRS and CAS will be recurring in the future, while the timing difference related to the measurement of investment securities will be reversed gradually and eliminated in future years.
