One-stop scam and pitfall search engine

“Scameter+” mobile application

To fight against the telecommunication and online frauds, the Police has rolled out the one-stop scam and pitfall search engine “Scameter+” mobile application to help the public identify frauds and online pitfalls. When the public encounters suspicious calls, online sellers, friend requests, job advertisements, investment websites, and the like, they can enter the platform account name or number, payment account, phone number, email address, URL, etc. to assess the risk of fraud and cyber security.

Customers can make good use of this Police search engine to aware of frauds and to protect their own interests.
