Additional Information

- Exposure to exchange rate fluctuation
 - If the currency of the loan is different from the currency of the insurance policy, foreign exchange rate risk implications may affect the value of the loan and Insurance Policy, you might suffer a significant financial loss.
 - In cases where the proceeds received from the insurance policy is substantially lower than the outstanding loan amount due to adverse fluctuation in the exchange rate, you may need to deposit additional funds to reduce the loan outstanding.
- Interest Rate Risk
 - The interest rate of the Policy Pledge Loan is not guaranteed. The interest payment will increase if the interest rate increases. If you fail to repay the outstanding loan balance, the Bank as the lender and the assignee has the right to surrender the assigned Insurance Policy and set off any outstanding amounts under the Policy Pledge Loan (if any) by the surrender value of the Insurance Policy.
