Continuous distribution of interest

Minimum Crediting Interest Rate to provide potential return

The premium paid will be accumulated as the Account Value. After deducting fees and charges\(^5\), the remaining premium will accrue interest in the policy account throughout the policy term. Account Value of the policy under the Plan will accrue interest at the Crediting Interest Rate\(^6\) (non-guaranteed) declared by BOC Life from time to time\(^6\) providing potential return. The Crediting Interest Rate\(^6\) is guaranteed for a specific period and interest paid will not be less than the Minimum Crediting Interest Rate\(^6\) thereafter, providing you with a foreseeable return to achieve your financial objectives.

**Investment Strategy, Philosophy in Deciding Crediting Interest Rates and Historical Crediting Interest Rates**

BOC Life invests globally in various types of assets, in order to achieve the advantages of diversification in investment portfolio. The assets supporting the policies under the Plan mainly consist of the following:

<table>
<thead>
<tr>
<th>Fixed income instruments or interest-bearing securities</th>
<th>Mix</th>
</tr>
</thead>
<tbody>
<tr>
<td>80% - 100%</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Growth asset</th>
</tr>
</thead>
<tbody>
<tr>
<td>0% - 20%</td>
</tr>
</tbody>
</table>

Fixed income instruments or interest-bearing securities include but not limited to government and corporate bonds, etc.

- BOC Life primarily invests in investment-grade bonds, together with a small portion of high-yield bonds and emerging-market bonds to further improve yield.

- Under normal circumstances, the major markets invested by BOC Life are North America, the Chinese mainland, Hong Kong, China and other Asian developed countries.

Growth assets include but not limited to listed equity, private equity, mutual funds, properties investment, etc. BOC Life invests in diversified growth assets, which aims to achieve a higher long term return over fixed income investments.

With the aim of achieving our long term investment target, BOC Life, at our sole discretion, reserves the right to adjust the aforementioned asset allocation when there are material changes in market outlook and condition, or engage in other financial arrangements including but not limited to reinsurance arrangement. BOC Life aims at investing in assets denominated in policy’s currency. If the currency of which the assets are denominated is not the same as policy currency, BOC Life may use derivatives to manage the impact of currency risk.

For the latest Investment Strategy, please refer to BOC Life website www.boclife.com.hk.

**Crediting Interest Rate of Universal Life Policies**

For universal life insurance business, the asset portfolio is constructed to support the crediting interest rate for the policy. It also allows policy owners to receive a share of profits attributable to the universal life insurance business of our company by means of crediting of interest. To accomplish the purpose, we invest in a wide range of asset portfolios that are prudently chosen by BOC Life to balance the risk. In general, the asset portfolios mainly consist of fixed income investment securities and equity investments.

The actual crediting interest rate is determined by the stipulated approach in BOC Life’s policy, which is based on a number of factors, including but not limited to, market conditions, actual investment return in the past and long-term expectation of investment return in the future. Future crediting interest rate may vary from time to time over the policy term, but will not be less than the minimum crediting interest rate as specified in the policy provisions, endorsements and / or amendments. The actual crediting interest rate is recommended by our Appointed Actuary according to the aforementioned BOC Life’s policy and approved by the Board of Directors of BOC Life.

In light of the above factors, crediting interest rate is not guaranteed and may be higher or lower than the values illustrated in the benefit illustration provided at point of sale.

You may browse the following website, www.boclife.com.hk/ps, to understand BOC Life’s crediting interest rate history for reference purposes. Please be reminded that the crediting interest rates shown on the website are before the deduction of any relevant policy charges (e.g. Premium Charge, Cost of Insurance, Policy Fee, etc.). Please note that past performance of crediting interest rate is not an indicator for its future performance.
Risk Disclosure of USD Insurance

USD policies are subject to exchange rate risk. The exchange rate between USD and HKD may rise as well as fall. Therefore, if calculated in HKD, premiums, fees and charges (where applicable), account value / surrender value and other benefits payable under USD policy will vary with the exchange rate. The exchange rate between USD and HKD will be the market-based prevailing exchange rate determined by BOC Life from time to time, which may not be the same as the spot rate of banks. The fluctuation in exchange rate may result in losses if a customer chooses to pay premiums in HKD, or requests the insurer to pay the account value / surrender value or other benefits payable in HKD, for USD policy.

Other Key Risks

- Key exclusion:
  
  No Terminal Illness Benefit will be payable resulting (directly or indirectly) from, or related to, or caused by or contributed (in whole or in part) by any of the following:

  (a) If the symptoms or conditions of which or the Diagnosis of which first appeared or occurred:

    (i) within 90 days immediately following the Policy Issue Date, or within 90 days immediately following the Reinstatement Date, whichever is later; or

    (ii) within 90 days immediately following the effective date of any increase in the Sum Insured.

  (b) Any Pre-existing Conditions unless the Policy Owner / Insured makes a declaration in the Application of this Policy, or in the application of reinstatement of this Policy or in the application of increasing the Sum Insured, and such application is specifically accepted by the Company;

  (c) Where the Diagnosis of Terminal Illness of the Insured was directly or indirectly due to Acquired Immunodeficiency Syndrome (AIDS) or infection by any Human Immunodeficiency Virus (HIV). Infection shall be deemed to have occurred where blood or other relevant tests indicate either presence of HIV or antibodies to HIV. Under the Plan, the definition of AIDS shall be that used by the World Health Organization in 1987, as may be revised by the World Health Organization from time to time;

  (d) Attempted suicide or any self-inflicted act, while sane or insane, and while intoxicated or not;

  (e) Congenital deformities or anomalies;

  (f) Professional sports, racing of any kind, underwater activities involving the use of breathing apparatus, aerial flights (including bungee-jumping, hang-gilding,-balloonizing, parachuting and sky-diving) other than as a crew member or as a fare-paying passenger on a licensed commercial aircraft operating in a regular scheduled route or any hazardous activities or sports unless agreed by special endorsement.

- The premium payable of the Plan and / or the Rider (if any) at the time of application and renewal, and fees and charges while the policy is in force are calculated based on the following factors (if applicable), including but not limited to the Sum Insured, gender, issue age, attained age, smoking habit, premium payment term, underwriting class, risk class and residency and is not guaranteed. Unless otherwise stated in the policy documents, some fees and charges, including Premium Charges, Policy Fee, and Cost of Insurance (if applicable), are not guaranteed. BOC Life has the discretion to adjust such fees and charges from time to time. BOC Life reserves the right to review and adjust the premium payable, fees and charges at any time. Factors leading to such adjustment include but not limited to emergence of difference between actual experience and current expectation.

- The Policy Owner should pay premium on time during the premium payment term. It may result in lapse or termination of the policy if the required amount (such as premium) is not made before expiry of the grace period (if applicable) as prescribed by BOC Life. If the policy is terminated or lapsed due to non-payment of premium, the Surrender Value received by the Policy Owner may be less than the total premiums paid and the Policy Owner will lose the insurance protection provided by the policy.

- BOC Life may terminate the policy before the maturity date if any one of the following events occurs:

  (i) the death of the Insured; or

  (ii) BOC Life approves the Policy Owner’s written request for surrender; or

  (iii) the Policy Owner fails to pay the required amount by BOC Life before expiry of the grace period; or

  (iv) payment of the Terminal Illness Benefit (if applicable) by BOC Life.

- The actual rate of inflation may be higher than expected, therefore the amount you receive may be less in real terms.

- The policy may lapse when the account value falls to zero or negative.
