Risk Disclosure:

The following risk disclosure statements cannot disclose all the risks involved and does not take into account any personal circumstances unknown to BOCHK. You should undertake your own independent review and seek independent professional advice before you trade or invest especially if you are uncertain of or have not understood any aspect of the following risk disclosure statements or the nature and risks involved in trading or investment. You should carefully consider whether trading or investment is suitable in light of your own risk tolerance, financial situation, investment experience, investment objectives, investment horizon and investment knowledge.

Important Notice of Trading Odd Lot:

- Only accept "Market Order" instructions.
- Only accept not more than 10 transaction instructions per trading day.
- Not accept buying odd lot through Mobile Banking via securities margin accounts.
- Upon receipt of customer's confirmation of the buy instruction of a Market Order, the transaction amount and additional charges (including brokerage fee and other charges) will be calculated based on the 10 spreads from the nominal price quoted at the time when the order is processed. The sum will be withheld from your available investment amount.
- For the odd lot selling order, if no "odd lot price" is input, the odd lot order would be executed at the price in the odd lot market, which may deviate several spreads from the nominal price. The order type of such odd lot order would be a "Market Order".
- If the proceeds of the odd lot selling order are less than the related charges, customer must pay the difference.
- The buy instruction of a Market Order will be submitted to the market for matching once with 10 best price queues in the prevailing market and within the range of maximum of 10 spreads above the nominal price at the time when the order is processed, provided that the order price is not lower than 0.01 of the denominated currency of the relevant stock. The final execution price may deviate considerably from the nominal price at the time of order placement. Any unexecuted order will be automatically cancelled at once.
- Stock transactions will be settled on the 2nd trading day after the trade day (T+2 Settlement).
- All unexecuted orders will be cancelled after the market closes.
- The processing time is related to the stock liquidity and the number of odd lot shares.
- Due to manual processing of odd lot orders, there is no definite range of price difference between the odd lot and the board lot. Such orders may take longer to process and are not guaranteed to be executed.
- Normally, the execution price of an odd lot order will have several spreads worse than that of a board lot order. BOCHK does not guarantee that investors can execute the odd lot orders at the best prices. The odd lot selling order under monthly savings plan would be executed at the prevailing price of the board lot market.
- HKEEx stipulates that the number of odd shares purchased and sold shall not exceed one board lot. When choosing odd lot order trading, an order with share quantity equal to or exceeding one board lot of the stock will be rejected.

- The buying odd lot stock list is subject to change by BOCHK from time to time without prior notice.
- By using BOCHK's odd lot trading services, you agree to the terms set out in this Important Notice.

Risk Disclosure of Securities Trading**Risk of Securities Trading**

Monthly Stocks Savings Plan is not equivalent to, nor should it be treated as a substitute for, time deposit. The prices of securities fluctuate, sometimes dramatically. The price of a security may move up or down, and may become valueless. It is as likely that losses will be incurred rather than profit made as a result of buying and selling securities.

RMB Conversion Limitation Risk

RMB investments are subject to exchange rate fluctuations which may provide both opportunities and risks. The fluctuation in the exchange rate of RMB may result in losses in the event that the customer converts RMB into HKD or other foreign currencies. RMB is currently not fully freely convertible. Individual customers can be offered CNH rate to conduct conversion of RMB through bank accounts and may occasionally not be able to do so fully or immediately, for which it is subject to the RMB position of the banks and their commercial decisions at that moment. Customers should consider and understand the possible impact on their liquidity of RMB funds in advance.
