Phone Banking Security Tips

To protect your interests, you should keep your Phone Banking password secret and never disclose your password to anyone. Phone Banking password should be changed regularly. You are advised not to use any numbers relating to personal information such as your birthday, identity card number, phone number or other information that is easily predicted as your password. Combinations of repeated or consecutive digits should also be avoided. Please disconnect the Phone Banking Service properly after completing your transactions to prevent unauthorised access by third party to your account.
